

## **The Community C.R.I.M.E. Steering Committee and Implementation Team**

The C.R.I.M.E. Steering Committee (CSC) has been created to work with the city and the police department and to lead the effort in development of a C.R.I.M.E. Plan. The committee is comprised of volunteers interested in making the city safe, and who are committed to helping the police department and city achieve this goal.

Volunteers are appointed for a set team, to serve as liaisons between the city and their respective communities, championing the plan. The CSC set a Chair and Co-Chair, and these persons serve as the primary contacts between the CSC and the city/police department.

The CSC is forming Implementation Teams, with each team having its own Chair and Co-Chair. The teams will consist of citizens, members of the business community and city employees. One team will be formed for each community crime control goal developed. The teams exist as long as necessary in order to successfully implement measures to achieve the goal.

## COMMUNITY C.R.I.M.E. PLANNING PROCESS

### What is the Community C.R.I.M.E. Planning Process?

Through the Community C.R.I.M.E. planning process (CCPP), citizens and community members assist the City of Newport News in developing its strategic plan for public safety, also known as a Community C.R.I.M.E. Plan. The C.R.I.M.E. Plan is the product of input from not only the police department and the city, but also a broad range of citizens, businesses and community groups.

### Steps in the Process:

The Community Mobilization Event was held on 03/28/15 to kick off the Community C.R.I.M.E. Planning Process. During this event, the city educated and informed community members about the process and invited citizens to volunteer to become involved. After the Mobilization Event, the C.R.I.M.E. Steering Committee (CSC) was formed, and met on a monthly basis (through July). In the Fall, the city will host the C.R.I.M.E. Project Summit where community members will be brought together to recommend actual community crime control goals for the city. Once goals are adopted, Implementation Teams will be formed for each goal. These teams will work to ensure that each goal is met.

Your input and assistance are welcomed and encouraged!
